Treatment of TB infection is essential to controlling and eliminating TB in India - Governor

Raj Bhawan, Dehradun, 23rd March , 2021

On the occasion of world tuberculosis day in her message Governor Smt. Baby Rani Maurya said that treatment of TB infection is essential to controlling and eliminating TB in India. We reaffirm our commitment towards TB free society. Our public health system and private providers play a crucial role in this effort. Universal access to quality diagnosis and treatment for TB is the need of the hour. Governor said that Universal access to quality diagnosis and treatment for TB is the need of the hour. Correct and complete treatment is the key to winning the battle against TB. we also salute the people and organizations strengthening the TB-free movement.
